

BATHROOM PODS HAVE EVOLVED!

We commissioned respected firms, Solid Support and Napier Blakeley to conduct a Cost Study which compared Buildom's Superior Vertical Delivery Bathroom Pod Systems with conventional in-situ bathroom construction.

INDEPENDENT COST STUDY FINDS

25%
Time saving
per typical
floor finish

30.1%
Reduction in
trade manpower
hours

47%
Cost savings
on bathroom
construction

AND MUCH MORE!

Keep up with the industry and download the detailed report today!

The benefits are through the roof!

These savings are made possible with Buildom's patented vertical stacking and hydraulic systems, and single point of service for bathroom manufacture, trades and installation.

Best of all, Buildom's modular systems offer virtually unlimited design flexibility and streamlined installation.
